Reuse Websites/Online Swap Shops

Limerick County Council is promoting reuse as a more sustainable way of dealing with certain types of household waste – to reduce the amount of waste going to landfill and to help people clear their clutter. Reusing is a step up the waste hierarchy and is a preferred option to recycling.

Why not check out your local **charity shops** which sell second-hand goods that might otherwise be thrown away or check out some of the **Online Reuse Websites** – examples listed below. These websites usually operate on the basis that people can offer or avail of second hand goods free of charge.
